

B240

Professional Adjustable Stool - Black

This medical stool is upholstered in durable black, antimicrobial vinyl, and equipped with a 4-inch thick molded foam seat that provides improved durability. It is attached with an easy to reach gas lift seat height adjustment lever, providing a vertical range of 6-inch to suit your personal comfort and work environment. Its base has an attractive chrome finish, and provides great stability to the stool. The hooded double wheel casters make it easy to move and shift directions. Suitable for medical offices, spa, beauty salons and others.

Features:

- Ergonomic design emulates the natural shape of the spine to increase comfort and productivity.
- Upholstered in durable Caressoft vinyl for easy maintenance and cleaning.
- Adjustable seat height with a 6" vertical height range.
- Available with back cushion (B245) or without back cushion (B240).
- Dual wheel casters allow for easy movement.
- Attractive chrome finish on the base and gas lift.
- Also shown with PM Stool Kit.
