

CC2119BE

We've created our CC2119 chairs with high traffic venues in mind. This includes features such as the leg support bar, high density, fire retardant foam padding and fully welded Stainless-Steel frames for ultimate strength. For the end of the day, we've also made our chairs perfect for vertical storage (13pcs) with stacking bars and protective pads and optional handholds for safe and comfortable handling. Commercial grade wear resistant fabric and powder coat finish from our CC2119 range or specify your own.
