

Pedrali ICE800: Versatile chair with polypropylene shell

Design by Claudio Dondoli & Marco Pocci. The chair features a polypropylene shell that is UV ray resistant, with legs made of anodized aluminum tube, making it suitable for outdoor use. The Ice chair is lightweight, stackable, and ideal for public environments.

Additional Features: Available with a side linking device in grey polypropylene, perfect for meeting rooms.

Colors: Orange, green, red, ivory, brown, grey, and blue.
