

PM152424: Round High Table with Rain Flower Design

The PM152424 round high table can be used for indoor or outdoor dining, while its steel construction supports heavy-duty use in either setting.

The powder coating provides protection from UV rays in outdoor applications, and the plastic floor slides prevent marking and scratching on surfaces below. This table's floral top provides the dining area with eye-catching detail, and the black finish matches a variety of furniture pieces.

An umbrella hole is integrated into the top for shade on sunny days. Rain flower design top, 1-3/4" dia. Umbrella hole, 1" edge, protective plastic floor glides, designed for indoor and outdoor use, steel, powder coat finish.
